STEM+ Academy ~Classes will be held ONLINE through ZOOM~

Virtual Minecraft Madness Course– This 3D video game lets users explore, construct, create and interact inside an open and changeable virtual world. Because of its educational potential, Minecraft has evolved into an excellent and engaging way to expose students to STEM-related subjects, especially computer science and technology. Students will use their own Minecraft Java account to join our server. Once per week students will connect and talk with each other using the Zoom app. This allows for children to communicate and collaborate easily as well as for us to assist them. In addition, the server will remain open during non-Zoom hours to allow kids to continue their exploration and build projects. ***This course is ONLY for kids who want to play using their Minecraft Java account. The Java version is only playable on the computer.***
